ABOUT ME

I am a self-taught, self-directed, passionate learner and developer who focuses on Frontend Technologies (Html-Html5, CSS-CSS3, SCSS, SASS, JavaScript, React, TypeScript) and can put what I have learned into code. I am a highly motivated person in terms of team spirit and adaptation to team culture. I am excited to be a part of your projects and to be a team player as part of your team.

My life vision is not to be a consumer, but to be a person who produces and develops.

As someone who prefers to learn instead of I don't know, it is to put what I have learned into practice in a way that is understandable and understandable in order to activate it.

*** For Istanbul, Ankara locations, I can change the address and move, by negotiating the details for job postings at hybrid & office.

WORK EXPERIENCE

20/09/2022 – CURRENT istanbul, Türkiye

Frontend Developer Mimcode

I have proficiency in JavaScript, React, HTML, and CSS, as well as experience utilizing libraries such as Bootstrap, Tailwind, Redux, Redux Toolkit, and SCSS.

I played a key role in designing and developing the some parts of user interface of an e-commerce website, ensuring a seamless and user-friendly experience for customers.

I worked on responsive web projects with CSS and SCSS.

I had experience working with Material UI, AntDesign, Semantic UI libraries.

I made the transfer of old technology projects in React and rearranging them with React.

I make improvements to the quality of my code in testing React applications using Unit testing to ensure high quality and reliable code. Utilized Git for version control, ensuring efficient collaboration with team members and maintaining a history of code changes for multiple projects.

01/01/2022 – CURRENT Paris, France

React Frontend Developer Arabuleu

- I used React-Redux technology (In accordance with the project, with the Redux structure, saving was achieved in managing the states by collecting them in a central place)

- I managed data with Local Storage,

- Convert old technology web structures designed with HTML into React, I transferred.

- I took part in the listing structures of the e-commerce site project,

- I developed responsive projects with CSS, SCSS libraries.

- In the e-commerce project, I pulled a category using the Rest API, also I took part in project development using Rest APIs and HTTP protocols in different projects.

- I managed data with Local Storage,
